SAFECOR HEALTH ANNOUNCES SPONSORSHIP OF THE LAZARUS REPORT

Survey Key to Improving Pharmacy Practice and Medication Administration

WOBURN, Mass., September 15, 2008 — Safecor Health, LLC, a pharmacy services and unit-dose bar-code repackaging provider to hospitals, health systems and long-term care pharmacies, announced today it has agreed to be the exclusive sponsor of The Lazarus Report, a leading survey of hospital pharmacy operations and a key component to understanding patient safety, drug utilization, and other relevant pharmacy statistics.

“The Lazarus Report has been a key tool for hospital administrators and directors of pharmacy to understand pharmacy operating costs and compare relevant statistics against peer institutions,” said Stephen Fischbach, Safecor Health’s president and chief executive officer. “We are proud to be associated with Herman Lazarus and look forward to providing the resources necessary to make The Lazarus Report an even more important element of safe and effective pharmacy practice.”

“I am pleased to begin this association with Safecor Health,” said Herman Lazarus, president of The Lazarus Report. “My goal for this survey for over 20 years has been to help hospitals better understand their costs and processes and positively impact patient care. As a business focused on improving patient safety through high quality unit dose packaging, I know that Safecor Health and The Lazarus Report share a common goal of improving the medication delivery process in hospitals thereby improving the delivery of care.”

About Safecor Health, LLC
